

ROTOMECC® PTO SPEED AND ROTATION

ROTOMECC requires this form to be completed anytime an implement is ordered with a desired PTO speed or rotation that is not standard (540 rpm speed, clockwise PTO rotation).

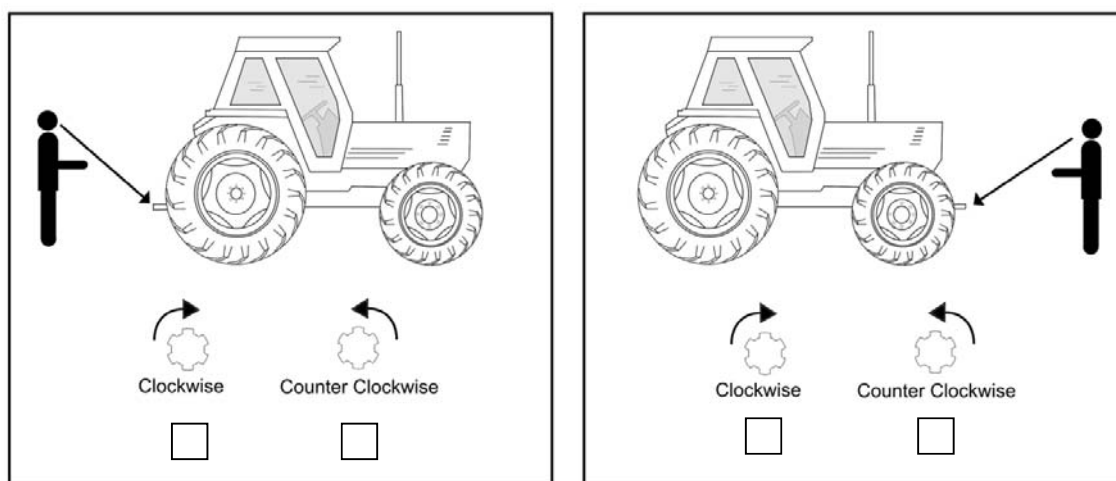

GB – In the diagram below, indicate the direction of rotation of the tractor PTO when facing it from the front. Put a cross in the check box over the desired rotation.

I – Indicare il senso di rotazione della presa di forza del trattore guardandola frontalmente e ponendo una crocetta su quella desiderata.

F – Indiquer le sens de rotation de la prise de force du tracteur en la regardant de front et marquez avec une croix celle que vous désirez.

E – Indicar el sentido de rotación del eje de la toma de fuerza del tractor mirandolo de delante y poniendo una cruz en la que desea.

D – Die Richtung der Zapfwelle des Traktors von vorne gesehen angeben und ein Kreuz auf der gewünschten Abbildung zeichnen.

ROTOMECC Model #: _____

Tractor PTO: 540 rpm 1000 rpm 2000 rpm

Print name: _____ Signature: _____

Once completed please fax (+39.0442.510038) or e-mail (info@rotomecc.com) this form back to **ROTOMECC**.
